

Gardlink

STOCK CONTROL AND TILL SOFTWARE IN ONE PROGRAM

Buy, sell, manage stock, report, return, search and more

Gardners

GROW YOUR BUSINESS WITH SOFTWARE YOU CAN TRUST

Gardlink is one of the fastest-growing Point of Sale systems on the market, the popular choice for independent booksellers around the UK and beyond.

Gardlink has been designed not only to offer real-time information on over 2 million products, supplied by Gardners but also as an open system to allow electronic ordering direct to all the leading Publishers and a wide range of non-book suppliers.

Developed by Gardners the UK's leading independent book wholesaler, with a catalogue of printed and digital books, as well as an extensive range of non-book items including, toys, stationery, and gifts.

Time and cost efficiency have been top considerations in the development of the software, which offers a user-friendly, non-technical layout, we aim to make bookselling easy.

GARDLINK ALSO INCLUDES ACCESS TO THESE KEY INDUSTRY PARTNERS

Nielsen BookData

Access the weekly sales charts with Nielsen BookScan Lite, create core stock ranges and cross-check your stock against national bestseller charts.

EDELWEISS

Compare your orders, stock and sales data to other affiliated shops, Utilise the online tools to build orders based on reviews, and analyse product performance.

Sell, Top Up and Redeem National Book Tokens through your EPOS system to increase book sales and speed up selling.

Allow your bookshop stock to be searched via Google and Facebook, and encourage more footfall.

Process electronic returns for a range of suppliers, to maintain stock levels.

Search availability and manage orders with one connection to multiple UK suppliers.

QUICK & EASY ORDERING

Gardlink offers a simple process to build orders for all of your suppliers, allowing you to order in real-time, reserve stock and also re-order from sales to quickly review and replenish your stock.

PRODUCT & STOCK MANAGEMENT

An ever-growing database gives you instant access to millions of titles with real-time stock information. Capturing order, stock and sales data for all of your products, including non-book products.

SALES ANALYTICS & ECOMMERCE

Gardlink offers a wide range of reports tailored to your shop's needs so you can keep on top of sales trends, stock turn and space planning. Print or export reports to a spreadsheet for further analysis.

OUR CUSTOMERS SAY ★★★★★

The Gardlink EPOS system is very comprehensive, and provides functionality for every type of bookselling business. A lot of great features, so up to any individual user, how they use them. The support team are excellent, friendly, courteous and always helpful with excellent response times. [Carolyn Clapham, Storytellers Inc.](#)

Gardlink is a robust system, with a friendly professional team looking after it. [Wayne Winstone, Winstone's Books.](#)

The Gardlink team are always helpful, polite, and friendly. They are quick to respond to software problems. They are always patient with non-technical booksellers. [Cathy Slater, Dulwich Books](#)

Gardlink software is our backbone, we refer to it constantly for stock control, book ordering, invoicing and the many other systems that make a bookshop tick. We never fail to be impressed by the friendly and fast helpline, who are extremely patient with us. [Jo Coldwell, Red Lion Books](#). [Jo Coldwell, Red Lion Books](#)
